They should not be ashamed that they were negroes. They should cultivate pride of race. They should be men, and should go where their names and respectability would permit them. They should follow in the tracks of the white men wherever they were good. He advised the steady advancement of the race, urging them to rise shove all oppression.

ATLANTA, May 7.—The jury in the Cox case were out all night, and came in at noon to-day to be recharged in full. At fifteen minutes to four o'clock they came in and announced that they had agreed upon a verdict. It was detained to correct an informality, and then read, as follows:

"We, the jury, find the prisoner guity, and recommend that he be punished by imprisonment for life in the penilentiars." mend that he be punished by imprisonment for me in the pentientiary."

Cox received the verdict with calmness, having existently nerved himself for the worst. She was wild with grief. As she reached the window she was caught by Cox, who beld her fast. She threw her arms around his neck and clung to him, wildly exchalming: 'Oh, my God!' TENNESSEE CROPS. The Wheat Outlook More Promising than Usual—Considerable Increase

in Tobacco and Corn Acreage-

Cetton in Fine Condition. NASHVILLE, May 7.—The report of the agricultural bureau for April shows that the crop prospect will compare most lavorably with that of previous jears. The wheat crop is far more promising than usual. The acreage of tobacco will be considerably increased, and the farmers will pay more attention in the future to raising the best quality. There is some apprehension of the scarcity of plants. The acreage of corn will be increased fifteen per cent, above that of last year. The crop, however, does not look promising. The folications are that the cotton crop will be largely increased; it is in fine condition. Winter oats were killed out by the severe slatter; an average crop of spring oats will be planted. Grassee are backward, owing to the unfavorable season, but an increased acreage will be sown. Sheep prospects are good, and cattle are in fair condition.

A WOMAN MURDERED.

Mysterious Appearance and Conduct of a Louisville Couple at Clarksville-The Woman Shot to Death by her Male Companion.

Nashville, May 7.—The American's Clarksville special says: "At about nine o'clock to-night Emma Drandt, from Louisville, Kentucky, was shot and instantly killed in room 30 at the Southern hotel in this city. It is supposed that John H. Merkel, also from Louisville, did the shooting. They arrived here last Friday and occupied separate rooms, leaving Saturday movining for the races at Nashville, but returned on the steamer Anderson and took a room at the same hotel last Tuesday morning as man and wire, cialming that they had been married in Nashville. The pistoi-shot wound is just over the left ere on the forehead, which is considerably powder burned. When the room was first entered, Merkel was down caressing and apparently crying over the dead body, and seemed to be greatly distressed over her death, which he claims was caused by her throwing the pistol on a table, and that it went off accidentally. Merkel was arrested and lodged in jail. The verdict of the coroner's jury has not yet been rendered. Special to the Appeal.1

The California Constitution Defeated. | Anamites.

New York, May 7.—The suspension of Whittemore, Peet, Post & Cc., woolen dry goods commission merchants, Nos. 346 and 348 Broadway street, was announced this afternoon, and took the trade by surprise, as it was one of the largest houses in that line, and had always stood very high. In January last their special capital was reduced from two hundred and fifty thousand to one hundred thousand dollars, and this caused some comment at the time, but it was claimed that the firm was just as strong as formerly. A week ago their credit was again questioned, and upon investigation their rating was withdrawn at Bradstreets, although it was generally thought in the trade that they would tide over matters, and were not seriously embarrassed Various causes are attributed for their failure, and it is the general opinion in the trade that over-advances to mills and manufactureers, the depreciation in manufactured goods, and old losses by bad debts, are the main causes of their embarrassment. Their liabilities are yet unknown, and the estimates regarding them are ranging from five hundred to seven hundred and fifty thousand dollars. It is said they do not owe much in this market, but it is thought the bulk of their paper is held by eastern parties—banks and consignees. They have not put any notes on the market since January 1st, and have, during the past four months, largely reduced their liabilities, and firmly expected to be able to 11de over their difficulties. Their bank accounts were with the Hanover, Metropolitan, Fourth and Ninth antional banks. It is said that they do not owe more than the usual discounts to any of these hanks. The firm is composed of E. A. Whittemore, John H. Peet, William Post and S. B. Barlow as general partners, and Henry L. Dyer spe Ial, for one hundred thousand dollars, it is said that they do not owed in 1872 or 1873 with the Taconne mill and the bound of the hundred thousand dollars. It is said that the firm became involved in 1872 or 1873 with the Taconne mill and the J. Wilcox manufacturing company, and lost up-ward of one hundred and fifty thousand dollars. It is also said that they suffered by the failure of the Meridien woolen company, which was afterward re-
